- Rigorous hands-on training encompassing front-end technologies such as JavaScript, HTML, and CSS, as well as back-end experience with Node.js and Express, alongside prominent libraries, frameworks, and tools.
- Over 500 hours dedicated to immersive learning under the guidance of experienced industry mentors and instructors.
- Successfully deployed projects online according to best practices using various platforms, demonstrating proficiency in hosting and managing web applications in real-world environments.

Lette Verein (Germany, Berlin)

August 2002 – June 2005

- German Fachabitur (qualification for university entrance)
- Apprenticeship as Technician for Electronics and Data technique

EMPLOYMENT HISTORY

Servicon NO (Kongsvinger, Norway)

Team leader in Projector and Public Display Department

April 2022 – present

- Transitioned to Team Leader in the Projector and Public Display Department, tasked with enhancing operational flow and overseeing technical support operations and component-level repairs.
- Implemented effective communication strategies with brand managers to promptly address logistical and technical challenges. Documented and optimized routines for the team handling component-level repairs and technical support.
- Successfully directed team efforts, improving operational efficiency, and ensuring prompt resolution of issues. Achieved seamless coordination between brand managers and the technical support team, enhancing overall departmental performance.

Senior Technician in TV-Box department

April 2017 – April 2022

- Transitioned from Service Technician to Senior Technician in the TV-Box Department, tasked with leading apprentice training and further enhancing repair processes.
- Continued to develop and document standardized routines while leading apprentice training programs to foster skill development and knowledge transfer within the team. Built upon previous experience by conducting diagnostics and repairs at both micro component and component-level.
- Successfully led apprentice training and implemented standardized routines, optimizing efficiency, and maintaining quality standards.

Service Technician in TV-Box Department

February 2015 – April 2017

- Tasked with establishing the company's repair facility on micro-component level for the TV-Box Department, including hardware setup and process implementation.
- Established a knowledge base by creating a symptom to fault database and documenting repair procedures. Conducted diagnostics and performed repairs at both micro component and component-level.
- Successfully established and operated the repair facility from February 2015 to April 2017

ElCare (Kongsvinger, Norway)

Service Technician

August 2010 – November 2014

- Entrusted with diagnosing and repairing laptops within a dynamic team environment, where the collective knowledge base needed constant creation, expansion, and effective communication among team members.
- Actively engaged in constant learning and collaboration within the team to swiftly decipher symptoms and pinpoint corresponding faults as new models were introduced. Regularly exchanged insights and findings to facilitate collective understanding and improve diagnostic efficiency.
- Successfully managed the challenge of diagnosing and repairing laptops amidst the constant influx of new models, resulting in the team meeting productivity expectations.

Betting Shop Marinero (Piraeus, Greece)

Operations Manager

June 2007 – August 2010

- Faced with the near bankruptcy of the store, requiring urgent intervention.
- Implemented strategic measures to stabilize finances, optimize staffing, and enhance customer service.
- Successfully rescued the store from financial collapse, ensuring its continued operation and profitability
